

# PCI Executive Workshop

*Develop a PCI Strategy Beyond Compliance*

## Challenge

When entrusted with credit card data, compliance with PCI standards is critical to the protection of your business and its customers. Building a PCI program and keeping it current can be a challenge. Often, organizations are unaware of the exposure they face, leaving them critically vulnerable. Regulations change. Audits are frequent. Business is constantly evolving. How do organizations effectively keep up with compliance requirements and pressure from customers and partners, while running a secure and cost effective PCI program?

## Solution

Optiv's PCI Executive Workshop delivers guidance around the PCI standards, provides an overview of applicable PCI obligations and discusses current business processes and how credit card data is handled. Your organization should update its PCI strategy periodically to achieve compliance goals and successfully build and run a sustainable program, regardless of where you are in the compliance cycle. This workshop helps lay the foundation for developing a high-level plan to address gaps in your current PCI program.

## Benefits of Working with Optiv
