

# MITIGATING RISK WITH MANAGED SECURITY SERVICES

## Optiv Provides a Cost-Effective Approach to Remotely Secure Your Environment

With each passing day, IT environments become more and more complex. Product manufacturers are constantly developing innovative offerings with new capabilities. Your IT and security needs likely continue to far outpace your available budgets and resources. The persistent rise in threats, combined with limited internal resources and the increase in regulatory compliance requirements makes it essential for your organization to think strategically when prioritizing IT initiatives.

When a reduction in capital expenses requires you to choose between focusing on strategic imperatives or ensuring your organization's security and compliance, you need a partner that can help you do both well.

**We are an extension of your team, supporting your organization precisely when you need it.**

As an extension of your team, Optiv's Managed Security Services (MSS) provide your organization with remote, 24x7x365 access to the essential expertise and infrastructure you need. We help you effectively monitor and manage the security of your environment and quickly identify and respond to potential threats.

### How Do We Do It?

- **PLANNING:**  
 We develop a customized process specific to your environment with a consistent, repeatable plan for when events occur.
- **ONBOARDING :**  
 We onboard you quickly to streamline processes and create tailored rules and reports to fit your needs.
- **MONITORING:**  
 We monitor your environment and alert you to critical events followed by remediation steps for you to take action.
- **OPTIMIZING:**  
 We manage daily operations and monitor health of devices including configuration management, tuning and customization.
- **REPORTING:**  
 We provide you with comprehensive on-demand and scheduled reporting, including real-time alerting on defined security events.
