

Achieve Granular Security Control with Your Office 365 Investment

Capitalize on Security Capabilities and Protect Your Business

The Microsoft Office 365 suite has become the standard cloud productivity platform used by enterprises. Because productivity and collaboration are primary motivators behind the purchase, organizations typically view security as an afterthought until an incident occurs. The IT organization then finds itself at a loss on grasping the security capabilities included in Office 365 and are ill-equipped to configure, integrate, manage or produce reports. Lack of visibility and control over data and users only exacerbates the problem. The consequences are a diminished return on investment and an increase in security risk, data leakage and operational cost.

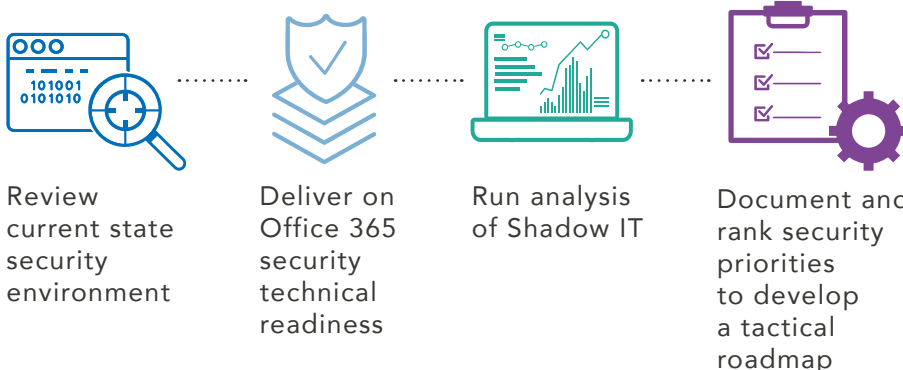

To apply Office 365 systemically across your ecosystem, you'll need specialized expertise in Office 365 security, comprehensive knowledge of existing tools to manage security governance and an understanding of policy, standards and procedures. Our experts bring over 50 years of combined experience in Microsoft security and possess unique knowledge of security capabilities within your current licensing model.

We evaluate your Office 365 environment through a security lens to:

- Identify gaps, risk exposure and other deviations from best practices
- Provide actionable recommendations to mitigate the risks of malicious activity and data loss

By partnering with Optiv, you can fully capitalize on your investment, elevate your team's skills, maintain compliance and reduce risks.

Optiv Delivers Security Control of Your Office 365 Ecosystem

How Do We Do It?

- REVIEW CURRENT STATE SECURITY ENVIRONMENT:**
 Perform deep discovery through stakeholder meetings and data collection focusing on business drivers, priorities and key technical and security requirements.
- DELIVER ON OFFICE 365 SECURITY TECHNICAL READINESS:**
 Deep dive into administrative consoles and security settings to discover variances from best practices in data governance, identity and interdependencies with other existing technologies.
- RUN ANALYSIS OF SHADOW IT:**
 Gather and review data used by your infrastructure to identify gaps in redundant workforce and gain visibility into unsanctioned SaaS applications.
- DOCUMENT AND RANK SECURITY PRIORITIES TO DEVELOP A TACTICAL ROADMAP:**
 Generate specific recommendations and next steps for your environment.

Benefits of Optiv's Microsoft Office 365 Cloud Security Architecture Program

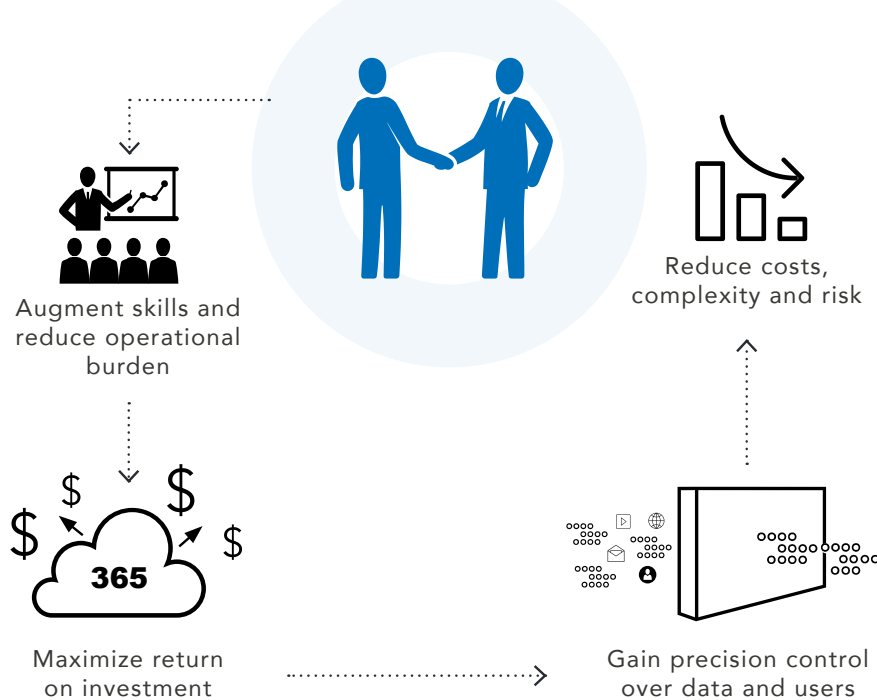

Augment Skills and Reduce Operational Burden: Up-level your team's skills and decrease operational burden through deep knowledge transfer of security capabilities that exist within current licensing model.

Maximize Return on Investment: Get the most out of your Office 365 investment by utilizing integrations between Office 365 and other ecosystem applications for consistent security policy and governance.

Gain Precision Control Over Data and Users: Amplify visibility and reporting of security risk profile to detect cloud anomalies, block risky activities and protect sensitive content.

Reduce Costs, Complexity and Risk: Consolidate instances and redundant applications running in your organization to save costs and reduce complexity and risk.

Our Path to Success

The Optiv Advantage:

Optiv can help businesses in every industry connect information security policies, procedures and practices with business goals. Our security leadership experts, backed by our team of consultants, can provide the experience you need to take your program to the next level.

Expert Minds

Optiv's security professionals are dedicated to helping you achieve results and realize value. Our team of 1,000+ highly skilled client managers and security practitioners work hard to deliver superior results and cutting-edge research to solve your complex, real-world security problems.

Leading Best Practices

Our knowledge of leading best practices helps Optiv formulate security recommendations tailored to meet your specific business objectives.

Client-first Culture

Optiv's passion for security and our commitment to quality results means we focus on the right solutions to meet your specific needs.

Proven Methodologies

Optiv has developed proven methodologies to help ensure superior outcomes for your projects and programs.
