JUMPSTART YOUR SECURITY PROJECTS

Quick Start Services Accelerate Your Time-to-Value

Optiv's Quick Start services deliver the skill and knowledge to quickly roll out a new technology in your environment and accelerate the use of new security investments. Our Quick Start program covers the basic steps in an installation including planning, design, configuration, reporting and tuning. Our expert staff will also convey key learning, leading practices and documentation to help ensure successful operation of your new technology post deployment.

Optiv's Quick Start services are an ideal choice for organizations seeking to deploy new technologies in an efficient, effective and timely manner. Selecting our Quick Start services provides your team with a solid foundation on which to build the next steps of your program and helps to maximize your investment. By engaging our highly-skilled team, you can reduce your time to deployment from weeks or months, to just a matter of days.

How Do We Do It?

PRE-PROJECT SUCCESS PLANNING:
Optiv consultants meet with you to determine project goals and establish benchmarks for a successful deployment.

PROJECT DEFINITION AND DESIGN:
Your dedicated consultant establishes baseline requirements and creates a deployment design to confirm the technology is scalable and integrates with existing infrastructure.

IMPLEMENTATION:
Optiv installs your new product. We then verify that the new technology runs optimally by tuning the system and configuring the solution.

TRANSITION:
Optiv trains your internal team to operate and manage the new technology. We also provide documentation detailing the deployment and configuration.

Benefits of Optiv's Quick Start Service

Accelerate Your Technology Deployment:
Our expertise means you can deploy new technologies on time and on budget.

Leverage Leading Practices from the Beginning:
Gain an upper-hand with industry best practices from day one.

Increase the Effectiveness of Your Team:
