

HOW TO MINIMIZE THE BUSINESS OPERATIONS IMPACT OF CYBER SECURITY

Strategies for Fortifying Your Security Posture

As a security leader, you must navigate an ever-changing security landscape. To chart a successful course it is imperative to align operational excellence and security priorities, meet overarching business objectives and articulate a clear vision of how your program maps to the realities of your business. The Security Strategy Assessment is a collaborative and strategic service designed to give you the tools to reach a business aligned, threat aware program no matter where you are on your security journey.

As a part of our proprietary methodology, we will help you define an effective business aligned security strategy. This exclusive service, delivered by the Office of the CISO, establishes and ranks a broad range of security priorities which align business strategy and technical needs. As an engaged partner, you will gain in-depth knowledge and insight into the threats and risks that impact your organization.

Our Process Provides Tools to Elevate Your Security Game

Align Security Initiatives with Your Business Goals

Interview key business stakeholders to gain insights into the products and services that generate revenue.

Document Your Business Relevant Threats

Determine specific threats to your organization. Identify requirements to elevate your defense and response posture.

Map Controls in Place to Protect Your Business

Examine current security program structure and maturity. As a result, create an actionable and prioritized program roadmap.

Build a Business Aligned Security Program

Review key findings and results during a facilitated discussion and receive a board-ready presentation.

Strategic Guidance and Actionable Results

What You Get: Strategic guidance and actionable results.

Information Security Program Dashboard
