

SECURITY STRATEGY ASSESSMENT

Successful Security Programs are Business Aligned and Threat Aware

As a security leader, you must navigate an ever-changing security landscape. To chart a successful course it is imperative to align operational excellence and security priorities, meet overarching business objectives and articulate a clear vision of how your program maps to the realities of your business. The Security Strategy Assessment is a collaborative and strategic service designed to give you the tools to reach a business aligned, threat aware program no matter where you are on your security journey.

As a part of our proprietary methodology, we will help you define an effective business aligned security strategy. This exclusive service, delivered by the Office of the CISO, establishes and ranks a broad range of security priorities which align business strategy and technical needs. As an engaged partner, you will gain in-depth knowledge and insight into the threats and risks that impact your organization.

OUR PROCESS GIVES YOU TOOLS TO ELEVATE YOUR SECURITY GAME.

Align Security Initiatives with Your Business Goals

Interview key business stakeholders to gain insights into the products and services that generate revenue.

Document Your Business Relevant Threats

Determine specific threats to your organization. Identify requirements to elevate your defense and response posture.

Map Controls in Place to Protect Your Business

Examine current security program structure and maturity. As a result, create an actionable and prioritized program roadmap.

Build a Business Aligned Security Program

Review key findings and results during a facilitated discussion and receive a board-ready presentation.

Strategic Guidance and Actionable Results

What You Get:

The final results will accelerate your security program's maturity and provide the most cost-effective recommendations to enhance your program. The service includes the following actionable deliverables, as well an executive level presentation:

Information Security Program Dashboard

Your current program maturity delivered in a dashboard-style presentation that highlights key focus areas and relevant risks. A priority matrix is included that will drive your remediation roadmap.

High Impact Strategy and Prioritized Roadmap

A strategy will be presented in a roadmap based on our assessment, along with the snapshot of recommendation implications. We provide a business-centric determination of which projects offer the best risk mitigation at the highest value.

Threat Assessment and Profile

Your organization receives a step-by-step analysis of its relevant threats. This threat profile enables you to determine where to invest in technologies or processes to mitigate critical threats.

The Optiv Advantage:

Optiv can help businesses in every industry connect information security policies, procedures and practices with business goals. Our security leadership experts, backed by our team of consultants, can provide the experience you need to take your program to the next level.
